## SPECIAL NOTICE

TO THE

## SICK AND AFFLICTED

## Dr. J. Lyman Wesley

formerly examining physician of the Middlesex Health Sanitarium, Lowell, Mass., and late of Boston, is now located at Lexington, Ky., and by request, has decided to visit Maysville on

MONDAY, FEB. 7th,

and remain one week at the Central Hotel. Office hours: from 9 to 12 a. m. and 1 to 6 p. m. DR. WESLEY will visit Maysville every other week during the Winter and Spring months should his practice warrant it.

The success that attended DR. WESLEY'S efforts in this city some two years ago attracted widespread attention and caused hundreds to visit him who had almost abandoned all hope of relief, and in nearly every instance the sufferers were either cured or greatly benefited from the treatment they received. His scientific method of diagnosing disease without asking the patient a single question is a surprise to them all, but very easily understood by the doctor, as he has made the human system a study for the past sixteen years, and his large experience in the hospitals of Europe and this country has enabled him to perform many wonderful cures which have been pronounced incurable.

DR. WESLEY makes a specialty in the treatment of chronic diseases, such as dyspepsia, Rheumatism, Neuralgia, Paralysis, dropsy and all the diseases of the Blood, Heart, Liver, Kidneys, Spine, Piles, Festules,

## CANCERS, TUMORS

and in fact nearly all the diseases to which the human flesh is heir to are treated successfully by him.

Ladies that are suffering with diseases peculiar to their sex can consult the Doctor with every assurance of relief, as he gives special attention to the treatment of all female complaints.

## DR. WESLEY'S

## Compound Oxygen!

Is positive and speedy in its action, penetrating the air passages, conveying the germ of the compound directly to the seat of the trouble, eradicating impurities, removing all obstacles and permanently cured the most severe and chronic forms of

## WILD WINDS AND WATERS

## REPORTS OF TERRIFIC TORNADES AND HEAVY RAINS.

Great Destruction of Property at Akron. Ohio—Heavy Rain and Wind Storms Visit the Northern Portions of Ohio and Indiana—Big Floods Elsewhere.

AKRON, O., Feb. 12.—A terrific tornado with heavy sheets of rain swept over the southern and eastern portions of this city at 7:30 this morning. On West Center street the chimneys were blown from a whole row of dwellings, and all the sheds and out houses were blown into kindling wood. The front of J. Fritz's grocery was also blown in. At Seiberling's mower and reaper works a big stack in course of erection was partially blown down, the bricks and scaffolding going through the roof of the main shop and smashing numerous windows in the vicinity. The employees narrowly escaped.

At North Richfield, in the midst of the high wind, a fire broke out in the Hildebrand hotel, which was soon consumed, together with its barn. Citizens fought the fire for several hours and prevented their spread to other buildings. The loss is \$4,000.

On the Valley road big washouts are reported near Independence. Trains are entirely stopped.

## Flood at Fort Wayne.

FORT WAYNE, Feb. 12.—The almost incessant rains of the past week have produced a flood only surpassed by the great freshet of four years ago, and which promises now to be eclipsed. At the confluence of St. Mary's and St. Joseph's rivers, forming the Maumee, water rose five feet last night and is now six inches an hour. Along the Maumee, between this city and Toledo, great distress is reported, and families in many instances have removed to upper stories of their houses or have abandoned them altogether. The water is now within eighteen inches of the bridges here, and the pikes leading toward the north in many places are entirely submerged.

The tracks of the Fort Wayne, Muncie & Cincinnati railroad, and of the Lake Shore are seriously threatened. Employees of all the factories on land are engaged to-day in surrounding the buildings with dikes. No fatalities so far reported.

## A Cold, Whistling Blast.

CINCINNATI, Feb. 12.—Every station in the Ohio Valley, Lower and Upper Lakes and Upper Mississippi and Missouri Valleys report either rain or snow early this morning. Keokuk, Iowa, had the heaviest storm—a fall of 1.01 inches. The severe rainfall here did not occur until after the morning observation had been taken. Before that time only .02 of an inch had fallen. The weather was still cloudy at Pittsburgh, but only .05 of an inch of rain was reported. The wind at 11 o'clock was blowing with hurricane-like fury—a cold, chilling blast that went right to a fellow's marrow bones at the rate of thirty-seven miles an hour. The indications of rain followed by colder weather have been verified.

## Storms Cripple the Telegraph Service.

CHICAGO, Feb. 12.—The rain which had been falling in this city yesterday turned into a driving sleet and snow storm last evening and continued to prevail all of last night, this morning the temperature standing 20 degrees above zero, with a strong wind prevailing. The telegraph wires are working badly in all directions, and the local telephone service is entirely crippled over certain portions of the city. The telegraph service is such that only a few wires are working either to the east or northwest.

## Susquehanna on a Tear.

FORT DEPOSIT, Md., Feb. 12.—A tremendous ice gorge is coming down the river. The water is rapidly rising. All the cellars along Main street are flooded. The long bridge across Conestoga creek was swept out last night. Traffic on the railroad is almost entirely suspended. All the low lands are under water, and there is great distress among the poor, who were suddenly driven from their homes.

## Destruction of the Wheat Crop.

GRAND RAPIDS, Feb. 12.—Grand river is steadily rising. At Lansing and Lyons ice gorges are choking the channel and many bridges are under water. The damages thus far is confined to flooded basements and to destruction of the wheat crop in the lowlands.

## The Glorious Climate of Dakota.

CHICAGO, Feb. 12.—A special from Huron, Dakota, says: The heaviest and hardest snowstorm of the winter raged all day yesterday. Eight inches of snow fell. No trains have reached here since Wednesday.

## Railroads Blocked.

ABERDEEN, D. T., Feb. 12.—A severe snow storm has been raging here since Wednesday afternoon. The wind is strong from the north and drifting the snow badly. The railroads are blocked.

## A Newspaper Office Unroofed.

WAPAKONETA, Feb. 12.—A terrible wind storm struck this city this morning. It unroofed the Democrat office, causing a loss of \$300. Much minor damage was done to windows and chimneys.

## OUR CARDINALS ABROAD.

They Arrive at Rome in Time for the Annual Celebration.

NEW YORK, Feb. 12.—The New York Catholic News has received the following special dispatch from Rome: The two American cardinals will arrive here in time to take part in two of the most interesting celebrations witnessed annually in this city and their presence at the attending ceremonies will be a source of special gratification of the holy father.

Five days before the opening of the consistory, in which the cardinals will receive their red hats, they will have the honor of representing the Catholics in America in offering a tribute of affection to his holiness on the seventy-sixth anniversary of his birth, and on the day following, which will be the 3d of March, they will assist at the ceremonies attending the due celebration of the tenth anniversary of Leo's coronation. On this occasion they will have the pleasure of listening to the annual address of the holy father to the sacred college of cardinals.

## A NARROW ESCAPE.

The Heroic Action of an Engineer to Stop a Wild Train in Ontario.

OTTAWA, Ont., Feb. 12.—The Toronto express had a narrow escape the other night near Ivanhoe, where there is a long down grade followed by a long up grade, and where full steam is given in the descent so that the ascent may be made with ease. The train was on the down grade, when suddenly the side bar on the fireman's side of the engine broke off just as the fireman was about to resume his seat. The piece went whirling around at a frightful rate, and the seat and side of the cab were torn into splinters. Billy Anderson, the engineer, dismounted from his seat instantly, but not before he was hurt by the rod on his own side, which broke off and went whizzing through the air in a similar manner, digging pits into the track and wrecking the cab wherever it struck.

The engine was off the track and the whole train was moving at the rate of forty miles an hour, the driver could not reach the air brake, and all this time the engine was plunging over the ties. Something had to be done, and although severely injured in the back, the engineer climbed over the tender into the platform of the first coach, and leaning down under the car with an open knife in his hand, he made a slash at the rubber tubing, cut a hole. The brakes applied themselves, and the train soon came to a standstill and held the engine. Few persons other than the regular train hands, knew anything of the danger they had passed through, and strenuous endeavors were made to keep the facts from being known.

## A Reign of Terror in Ontario.

OTTAWA, Ont., Feb. 12.—Advices from Mount Brydges, Ont., state that a reign of terror there owing to several outrages committed by liquor dealers on clergymen and others who have been crusading against these looms and enforcing the Canadian temperance act. The house of Inspector Robertson was broken into at night, the windows and furniture smashed and two shots fired with a revolver, terrifying the inmates who were afraid to venture down stairs. The house of Rev. Mr. Silcox was visited but the marauders were frightened off. The next victim was Rev. J. E. Moore, a Methodist clergyman, president of the Temperance Alliance. All the windows in the front of the house were smashed and a shot was fired at Mr. Moore. Threats have been made to burn the houses of all the persons who make any further attempt to enforce the temperance act.

## He Was Mad and Killed a Man.

CIRCLEVILLE, O., Feb. 12.—The jury after being out ten hours, returned a verdict of guilty according to the indictment against Benjamin Beachell, charged with manslaughter. Beachell killed one McClelland Groome last September at the locks near this city. Groome wished to pass through the locks on Sunday with a small boat, not having clearance papers. Beachell, who had been lock tender, and whose term had expired on the day previous, refused him permission to pass. Thereupon Groome carried his boat down the river and transferred it to the canal boat below the locks. This so infuriated Beachell that he went into his house, secured a shotgun and emptied its contents into Groome, from the effects of which he died the next day.

## Accident on the Cleveland &amp; Pittsburg.

CLEVELAND, O., Feb. 12.—The Cleveland & Pittsburg express, which left here at 12:45 a. m. to-day, ran through a bridge about six miles from this city. The engine, baggage and express cars ran across all right, but the smoker, containing four passengers, went down. The engine and express and baggage cars ran off the track after crossing the bridge and turned over. A day coach went partially over into the stream, but was held back by the sleeper, which remained on the track. The passengers in the smoker miraculously escaped injury. The fireman had a leg broken. High water undermined the abutments and caused the accident. The loss to the company is about \$25,000.

## A Gasoline Explosion.

CINCINNATI, Feb. 12.—A two gallon can of gasoline in George Bullitt's lunch stand at the northeast corner of George and Plum, exploded last night at 9:15 with a loud report, tearing the stand to pieces and throwing Bullitt into the street with his clothing ablaze. The flames were extinguished by passersby and the police. Bullitt was filling a lamp from the can at the time, and was frightfully burned. It is believed he will recover. He escaped from instant death was wonderful.

## Arrest in the Dunham Murder.

WARSAW, Ind., Feb. 12.—Joseph Plew, formerly employed by Mr. Dunham on his farm, was arrested Wednesday evening at Syracuse, near the scene of murder, brought to this place and jailed. Dunham discharged Plew a short time ago after a quarrel in which Plew threatened to get even with him. Mrs. Dunham is somewhat stronger to-day, though still unconscious, and may ultimately recover.

## Postoffice Burglars Captured.

NEW YORK, Feb. 12.—Two of the burglars who worked all night at the safe in the Jersey City postoffice are now in custody. They are James Johnson, aged fifty, and William Langtry, aged thirty. They were arrested here Tuesday night by detectives. The arrests were kept secret in the hope that the others might be trapped.

## Prohibition in Michigan.

LANSING, Mich., Feb. 12.—The state convention of the Prohibition party opened this morning with a large attendance of delegates. The convention is held at this time for the purpose of arranging for a vigorous campaign and united fight in the interest of the prohibitory amendment to the constitution.

## Natural Gas Under St. Louis.

ST. LOUIS, Feb. 12.—Professor Ashburner, former state geologist of Pennsylvania and now general expert and chief engineer of the Philadelphia Natural Gas company, of Pittsburgh, says the signs all point to the existence of plenty of gas under the city of St. Louis.

## A Saloon Burglarized.

CINCINNATI, Feb. 12.—The saloon of Adam Meyers, at the southwest corner of Court and Plum, was entered by burglars last night through a rear window and robbed of a Smith & Wesson revolver, fifty good cigars, and \$5 in cash.

## PROVED A DEAD LETTER.

## THE ORDER CALLING OUT THE ENGINEERS NOT OBEYED.

Not a Single Instance Where the Stationary Engineers Quit Work—An Utopian Scheme at Chicago—The Boston Railroad Company Start Their Cars.

NEW YORK, Feb. 12.—The order calling on the engineers employed on the steamship and railroad piers to go on a strike, so far as the piers of the river front are concerned, proved a dead letter. A visit to the docks this morning failed to discover a single instance where the stationary engineers had quit work. A visit to the breweries showed that all the employees were at work, and the men stated that they had positively refused to obey the order to stop work and join the army of strikers.

## An Utopian Scheme.

CHICAGO, Feb. 12.—The scheme which has been broached by certain visionary members of the Knights of Labor, having for its object the establishment of a co-operative colony within a hundred miles of this city, is scouted at as Utopian by the more level headed among the leaders and rank and file of the order. They say that the amount required for the purchase of the land—\$85,000—can not be raised by the subscription method proposed inside of ten years, and that, moreover, the colony principle is not favorable to the progress and material development of the working element. The promoters, they said, may manage to get a few dollars with which to boom the scheme in type and advertise themselves, but that eventually the whole affair will prove a bubble.

## Started Out Five Cars.

BOSTON, Feb. 12.—The South Boston railway company started its cars this morning. Five cars each carrying four policemen and a number of passengers went over the entire line. No disturbance has yet been reported.

## ANOTHER CLIVERUS AFFAIR.

Except that the Young Lady Was Not Ruined, Though Shot.

MT. HOLLY, N. J., Feb. 12.—A remarkable case of attempted suicide or murder has come to light here. Mary C. Anderson, a handsome young woman about seventeen years of age, enjoying a good reputation, left her home on Monday night. On Tuesday morning she was found in the outskirts of the town, with a bullet hole in her head. She was removed to her home, where she now lies in a dying condition. She has been unconscious ever since, and could, therefore, make no statement as to the shooting.

A revolver was found on the ground about a hundred yards from her, one chamber being empty. The revolver proved to be the property of her cousin, Barclay Peak, who maintained a close friendship with her. Peak was arrested on Tuesday, and stoutly denied his guilt, and intimated that the girl committed suicide. At the preliminary examination it was proved that they were out walking together in the locality where the girl was found. Peak was committed to await the result of the girl's injuries. Late last night Miss Anderson recovered consciousness, and told the story of the affair. She asserts that Barclay Peak and herself were taking a stroll through the neighborhood, when he made improper proposals to her, and, after she had strenuously resisted his advances, he drew his revolver and shot her through the head. The young lady is still alive, but slight hopes are entertained of her recovery.

## Attempted Suicide.

CINCINNATI, Feb. 12.—A wild eyed man walked cautiously down to the foot of Main street at 8:45 this morning and looked earnestly into the seething, muddy waters as they whirled past in the scummed river. Suddenly he started to rush into the water, when a strong hand was laid on his shoulder and he was carried away from the bank, despite his struggles. Officer Corbin then found that he had collared a maniac, bent on self-destruction. He took him to Hammond street police station and thence to the probate court. It was then ascertained that the demented was an escaped lunatic from Longview. His name was Gustav Dickman, aged fifty years and married, who was sent June 25, 1886, to the asylum. How he got away is not known. To-morrow he will be recommitted to the institution.

## The Rock Island Robbery.

CHICAGO, Feb. 12.—Regarding the alleged developments in the Rock Island express robbery and murder case, a special dispatch from Morris, Ill., where Henry Schwartz is confined says: The developments since Monday, including the confession from Mrs. Schwartz, which, it is said, furnishes the much desired clue, will lead to the arrest of two, and possibly three, parties in Chicago. If three parties are arrested Newton Watts will be one of them, though it is still believed that he is innocent. The names of the other two are withheld for the present.

## Young Thieves.

LOUISVILLE, Feb. 12.—Four youngsters, aged respectively ten, eleven, thirteen and fourteen, were arraigned in the city court yesterday on the charge of burglary. They have been robbing grocery store for some time past. Wednesday night they broke into a grocery and stole \$25 and two boxes of cigars. A negro boy, who had been asked to join them and refused, gave the snap away and their arrest followed. The cases were continued.

## Putting on University Airs.

PRINCETON, N. J., Feb. 12.—At a meeting of the board of trustees of Princeton College yesterday, President McCosh recommended that the institution take on the dignity and title of Princeton University, and that the alumni be allowed a representation in the management. The former recommendation was referred to a committee for report; the latter was favorably commented on, but received no direct action.

## Mortgaged for Two Million.

CINCINNATI, Feb. 12.—A mortgage securing \$2,000,000 of a loan made by the Farmers' Loan & Trust company, of New York, to the Cincinnati, Hamilton & Dayton Railroad company, was filed in the recorder's office this morning. The bonds secured have fifty years to run, and bear interest at the rate of 4 1/2 per cent. per annum.

## THE CHINAMAN MUST GO.

Southern People Will Not Recognize the Celestial as Their Equal.

AUGUSTA, Ga., Feb. 12.—There is quite a sensation here over the entertainment at the Central hotel of a Chinaman named J. S. Lee. Lee came here from Aiken on business, registered at the Central, and left the hotel. Later, in company with Mrs. M. E. Vanderpool, a northern lady, he entered the dining room and ordered dinner for the lady and himself. Instantly there was a kick all around. The guests refused to dine in the same room with the Celestial, and there was a rush of complaints to the proprietor. Lee and Mrs. Vanderpool continued their meal unmolested, however, and later left the city for Aiken. The matter is the talk of the town.

The hotel people aver that the Chinaman is a wealthy tourist, daily entertained at the Aiken house, where northern visitors are numerous, and where his company is sought and his acquaintance cultivated by the northern guests. There it was that he met Mrs. Vanderpool, and thus, when happening to meet her in Augusta, he invited her to dine with him. It was shown by the action of the guests, however, that southerners flatly refuse to be placed on a footing with Chinamen, no matter how wealthy, what their station, or what the relations borne toward them by ladies and gentlemen of the north. The protest was positive and final, and a repetition of the occurrence is not anticipated.

## Y. M. C. A. Annual Convention.

XENIA, O., Feb. 12.—The twentieth annual convention of the Young Men's Christian Association of Ohio is now in session in this city. From present indications the convention will be the largest and most important ever held in Ohio. There are about two hundred delegates here. The secretaries of the state have closed their annual conference. The opening session of the convention was held yesterday evening in the First M. E. church. Addresses of welcome were delivered by Vice President McKibben and Rev. Dr. Morley, of Xenia. The officers of the convention elected last night are as follows: President, William McAlpin, of Cincinnati; vice presidents, J. A. Wearn, of Canton, O.; C. E. Munson, of Columbus, O. Secretaries, L. C. Shuey, of Toledo, and H. K. Caskey, of Cleveland.

## International Range Convention.

DENVER, COL., Feb. 12.—In the session of the international range convention a resolution was adopted thanking Commissioner of Agriculture Coleman for the endeavors he has made to check the spread of plueropneumonia. The proposition of Mr. McGellar, of Cleveland, for the pooling of cattle interests in the range country and the formation of a stock company with a capital of \$100,000 was referred to the board of directors. The reports that the range cattle business was in a bad financial condition was denied in a resolution which received hearty applause. Col. R. G. Head, of Colorado, was then elected president; J. S. Brush, first vice-president; J. C. Leary, secretary, and J. A. Cooper, treasurer. Adjourned sine die.

## Standard Oil Company's Iron Mills.

HARRISBURG, Pa., Feb. 12.—The Standard Oil company uses 250 tons of iron hoops a day in making the barrels for its refined oil. These hoops are now manufactured at iron mills at Youngstown. In carrying out its policy of having all branches of its business under its sole control the Standard company is preparing to put up iron mills near Oil City, where not only its hoops will be made but all the iron conduct pipe used in the transportation system of the company. These great mills will have over 150 furnaces and employ more than 2,000 men.

## An Ohio Quaker Robbed of \$27,500.

ATLANTA, Ga., Feb. 12.—When Jacob Miller threw his clothes upon the back of a chair last night one of his pockets contained \$3,500 in money and certified checks on Ohio banks for \$24,000. When he arose this morning the pile was gone. Miller is a Quaker, who came here from Lebanon, O., to purchase lands for the use of a Quaker colony. The money was to have been paid over to-day. Miller claims to be wealthy, and to be able to stand the loss.

## Fire in a Fashionable Hotel.

JACKSONVILLE, Fla., Feb. 12.—The Glenside, a fashionable hotel, took fire at 7 o'clock last night and was partially destroyed. It was nearly full of northern tourists. A number of ladies were prostrated. An indiscriminate mob rushed in and gutted the premises, plundering some rooms. The servants in the hotel lost everything. The damage by fire and water is estimated at \$10,000; covered by insurance.

## The Father McGlynn Fund.

NEW YORK, Feb. 12.—In spite of Dr. McGlynn's request that the fund for his benefit be closed, contributions continue to pour in and the doctor has announced that he will consider the \$2,000 already collected as a trust fund, to be disposed of in some manner acceptable to the donors and will use no portion of it for his personal benefit except in the event of dire necessity which he does not anticipate.

## Brick Block Burned.

WESTMINSTER, Md., Feb. 12.—The fine new three-story brick building, known as the Albright block, was burned this morning. Aggregate loss \$64,000, as follows: G. W. Albright, building and stock of dry goods, \$32,000; insurance \$22,000; S. Kann, Son & Company, dry goods, \$29,000; insurance \$15,000; A. E. Hurley, clothing, \$3,000; insurance \$1,500.

## An Insane Woman Suicides.

INDIANAPOLIS, Feb. 12.—Mrs. Jesse T. Jones, the wife of the superintendent of drawing in the public schools, committed suicide this morning by hanging. When found she was suspended from a clothes hook in her room. The unfortunate woman used a handkerchief for a noose. Mrs. Jones was recently an inmate of the Cincinnati sanitarium, where she had been sent for treatment of an acute mental trouble.

## A Boy Murderer Recaptured.

CINCINNATI, Feb. 12.—Jimmy Dolan, one of the boys sent to the Reform Farm with several others for the murder of old man Morgan a few years ago, escaped from the farm last week by scaling the walls, and was captured last night by the officers of Hammond street police station. He will probably be returned to the farm.

# DAILY EVENING BULLETIN.

Proprietors.

SATURDAY EVENING, FEB. 12, 1887.

## A Canning Establishment.

The idea of starting a canning establishment here is enlisting the attention of our citizens. The matter is being talked up. It would prove a good thing for our city. The surrounding country is well adapted to the growth of fruit and vegetables, and such an enterprise as is talked about would prove beneficial to country and town alike.

There is no doubt as to finding a ready market for such goods. A few years ago, canned goods were hardly known. The industry has steadily grown, however, and the business has increased until now the shelves of our groceries are crowded with cans of corn, beans, tomatoes, apples, peaches, pears, plums, and vegetables and fruits of all kinds. These goods are found on the tables of rich and poor at most every meal. There is a demand for them—a big demand—and a canning establishment here in Maysville would be a profitable investment. If the project is to be carried out, it should be known as soon as possible—at least before spring sets in.

## A Tobacco Factory.

We hope to see the establishment here in Maysville before the year closes of a factory for the manufacture of plug and smoking tobacco. People will chew tobacco, they will smoke it. There is no doubt as to the demand for it remaining firm. The factory at Lexington, we understand, gives employment to about one hundred hands, and it has proved a success. It would be a good industry for any city. Maysville manufactures more cigars than Lexington, in fact three-fourths of all made in the revenue district, and why can't she do as well with plug and smoking tobacco? She can. There is no doubt about it, if the proper effort is only put forth. Who will be the one to take the lead?

Nothing will build up a city sooner than factories,—industrial enterprises of all kinds.

With one of the finest water works known, with cheap gas, and with good shipping facilities, Maysville certainly ought to be able to secure more manufacturing enterprises.

If the people of Maysville once determine to make their city something more than what it now is, then we may look for lively times. A determined spirit will not stop at anything short of success.

The Democrats of Fayette County have changed the date of holding their convention to select delegates to the State convention. In opposition to the expressed will of the State Central Committee they fixed upon March 19th, but this was thought to be a move in favor of General Buckner, and gave occasion to so much comment that the date has been changed to the 23rd of April.

PROFESSOR JOS. DESHA PICKETT, Superintendent of Public Instruction, was in town this morning. Mr. Pickett is a candidate for re-election, and, judging from the comments of the press throughout the State, his prospects are bright. He has devoted his time and energies to his official duties, and his administration of the office has been marked with ability and efficiency. The Democracy of Mason County stood solid for Mr. Pickett in the last campaign and they will do as well this time.

## ABERDEEN ITEMS.

Cunningham's Tonsorial Parlors is the place for choice cigars and tobaccos.

"A Night's Reverie" is a beautiful piece of music written by D. A. Ellis, of this place.

Rev. Fulton's lecture on temperance Thursday night was largely attended, and was an able discourse.

Sanford Turnpenny, who has been teaching school in Adams County, is now rusticated at home, school being closed.

S. M. Hudson has just received a bar of the celebrated William's coal, which he is delivering at 9 cents per bushel.

Cards are out for the wedding of Miss Adeline of this classic city, to Athol Johnston, of Cincinnati, O., February 20th.

The young men organized a debating and literary club last Tuesday night, and are now prepared to grapple on to all the important topics of the day.

Sir William Joseph John L. Christopher Columbus was the man who manipulated, as captain, the John-boat during the raging flood in Fish-gut the last rise.

Miss Helen Durrum, a young society belle, and daughter of one of Aberdeen's prominent citizens, has been united in wedlock to Mr. Lewis Lawwell, a prominent young farmer of Adams County, Ohio.

Commodore Hull, the boss boat and shoe maker, is turning out work for all parts of the country. It is a certainty that first-class work always speaks for itself. Leave your order for a pair and be convinced.

Notable events of February: Lots of dampness and Valentine's day. The Valentines you can get in all sizes and shapes and prices to suit at the drug store; the dampness can be found scattered around promiscuously.

William Norris sports a corn cob pipe. He assures us all Texan "smoking birds" smoke the same kind of an article. The amount of beauty it adds to a man's profile can only be conceived by watching William draw on his.

The dance that was to have come off Friday last was an entire failure. It seems that two of the young men who are foremost in such matters, paid the ladies a visit the fore part of the week, and there the mischief was done. They must have had pointed out to them the wickedness connected with a social hop, thereby causing them to drop the matter like a hot potato. Well, Love is a strong advocate.

# A MIDNIGHT LECTURE.

T. DE WITT TALMAGE TELLS AN ENTERTAINING STORY.

A Train "Misses Connection"—Fast Riding on an "Extra"—Another Delay—A Patient Audience in Waiting—On the Home Stretch.

At 8 o'clock precisely, on consecutive nights, we stepped on the rostrum at Chicago, Zanesville, Indianapolis, Detroit, Jacksonville, Cleveland and Buffalo. But it seemed that Dayton was to be a failure. We telegraphed from Indianapolis, "Missed connection. Cannot possibly meet engagements at Dayton." Telegram came back, saying, "Take a locomotive and come on!" We could not get a locomotive. Another telegram arrived. "The superintendent of railroad will send you in an extra train. Go immediately to the depot!" We gathered up our traps from the hotel floor and sofa, and hurried them to the depot. They would not go in. We put a collar in our hat and the shaving apparatus in our coat pocket; got on the sachel with both feet, and declared the thing should go shut if it split everything between Indianapolis and Dayton. Arriving at the depot, the train was ready. We had a locomotive and one car. There were six of us on the train—namely, the engineer and stoker on the locomotive; while following were the conductor, a brakeman at each end of the car, and the writer.

"When shall we get to Dayton?" we asked.

"Half-past nine o'clock," responded the conductor.

"Absurd!" we said; "no audience will wait till 9:30 at night for a lecturer."

## AT BREAK NECK SPEED.

Away we flew. The car, having such a light load, frisked and kicked, and made merry of a journey that to us was becoming very grave. Going round a sharp curve at break neck speed, we felt inclined to suggest to the conductor that it would make no especial difference if we did not get to Dayton till 9:45. The night was cold, and the hard ground thundered and cracked. The bridges, instead of roaring, as is their wont, had no time to give any more than a grunt as we struck them and passed on. At times it was so rough we were in doubt as to whether we were on the track or taking a short cut across the fields to get to our destination a little sooner. The flagmen would hastily open their windows and look at the screeching train. The whistle blew wildly, not so much to give the villages warning as to let them know that something terrible had gone through. Stopped to take in wood and water. A crusty old man crawled out of a depot, and said to the engineer, "Jim, what on earth is the matter?"

"Don't know," said Jim; "that fellow in the car yonder is bound to get to Dayton, and we are putting things through."

E lifted, bell rung, and off again.

Amid the rush and pitch of the train there was no chance to prepare our toilet, and no looking glass, and it was quite certain that we would have to step from the train immediately into the lecturing hall. We were unfit to be seen. We were sure our hair was parted in five or six different places, and that the cinders had put our faces in deep mourning, and that something must be done. What time we could spare from holding on to the bouncing seat we gave to our toilet, and the arrangements we made, though far from satisfactory, satisfied our conscience that we had done what we could. A button broke as we were fastening our collar—indeed, a button always does break when you are in a hurry and nobody to sew it on.

## A MISCALCULATION.

"How long before we get there?" we anxiously asked.

"I have miscalculated," said the conductor; "we cannot get there till 9:55 o'clock."

"My dear man," we cried, "you might as well turn round and go back; the audience will be gone long before 9 o'clock."

"No!" said the conductor; "at the last depot I got a telegram saying they were waiting patiently, and telling us to hurry on."

The locomotive seemed to feel it was on the home stretch. At times, what with the whirling smoke, and the showering sparks, and the din, and rush, and bang, it seemed as if we were on our last ride, and that the brakes would not fail till we stopped forever.

A 9:55 o'clock we rolled into the Dayton depot, and before the train came to a halt we were in a carriage with the lecturing committee, going at the horse's full run toward the opera house. Without an instant in which to slacken our pulses, the chairman rushed in upon the stage, and introduced the lecturer of the evening. After in the quickest way shedding overcoat and shawl, we confronted the immense audience, and with our head yet swimming from the motion of the rail train, we accosted the people—many of whom had been waiting since 7 o'clock—with the words:

"Long suffering but patient ladies and gentlemen, you are the best natured audience I ever saw." When we concluded what we had to say it was about midnight, and hence the title of this little sketch.—T. De Witt Talmage in Brooklyn Magazine.

## Fatal Fire in San Francisco.

SAN FRANCISCO, Feb. 12.—Fire broke out early this morning at 619 Post street, occupied as a Chinese laundry and Japanese fancy store, and communicated to the residence adjoining on the west. The wash house suddenly collapsed, burying a number of firemen. John Wilkinson, fireman, was killed, and three others were fatally injured. It is supposed that several Chinamen are among the ruins.

## Union Pacific Annual Statement.

BOSTON, Feb. 12.—The annual statement of the Union Pacific railroad for 1886 shows an increase of \$629,122 in gross earnings, and a decrease of \$602,262 in net earnings; an increase of \$146,993 in expenses; a decrease of \$540,811 in surplus; an increase of \$151,457 as compared with 1885.

## The Maroons Sold Out.

ST. LOUIS, Feb. 12.—The St. Louis League club, the Maroons, have been sold out, players and franchise, to the Kansas City club. Only two players—Denny and Glascock—are excepted. Denny joins the New York giants and Glascock goes to the Chicago.

## A Progressist Meeting.

BERLIN, Feb. 12.—At a Progressist meeting in Berlin, Herr Munkel denounced, amid cheers, what he termed the Pope's interference with elections. The incident, he said, should be inscribed in imperishable letters on the Canossa column.

# Indiana Legislature.

INDIANAPOLIS, Feb. 12.—The local option bill was called in the house and re-committed, with instructions to amend so as to make an election for local option depend upon a petition. A bill was introduced on behalf of a humane society to punish for cock fighting and dog fighting, and to require railroads carrying live stock to give animals a rest every twenty-eight hours. Bills were introduced fixing the rate of interest at 7 per cent; increasing the home-stead exemption to \$1,000; to purchase property in front of the capitol for state house grounds; establishing a bureau of labor statistics; requiring railroads to deposit \$300 in each county along their lines to pay for stock killed. In the senate a majority and a minority report of the committee on non-partisan control of benevolent institutions were submitted.

## Randall Opposing the \$21,000,000 Bill.

NEW YORK, Feb. 12.—A Washington special to the World says: Mr. Randall will not allow an appropriation bill for coak defenses to be reported by the appropriation committee. He is opposed to the senate bill devoting \$21,000,000 to that purpose and thinks \$10,000,000 would be ample. He considers it demonstrated that to build expensive steel guns now would be extravagant as there is a revolution going on in the manufacture of guns and war ships and the best guns of to-day will be antiquated to-morrow.

## A Horrible Crime.

HARTFORD, Conn., Feb. 12.—Rose Daly, a servant girl, is said to have cut off the head of her illegitimate infant a few days ago at West Suffield after a vain attempt to strangle the child. She then put the head in the stove and buried the body in the cellar. The lady in whose house Rose was serving returned from a visit and found the charred head in the stove. Rose is crazy, and dying. She walked a long way with bare feet through the snow, endeavoring to find a hiding place for the child's body. The affair causes much excitement in the little village.

## Committed Murder While Mad.

NEW YORK, Feb. 12.—Otto Veith, aged twenty-two, of 315 East Thirty-first street, shot and killed a servant named Louisa Wolf, and then shot and seriously wounded his stepmother, Mrs. Eliza Veith, late last night, while mad with drink. He hated Mrs. Veith because his father, who died recently, left all his savings to her, ignoring his children. The girl was shot because she opposed young Veith's entrance to the house, seeing that he was in a drunken mood. Veith escaped. The police are searching for him.

## Another Life Saved.

About two years ago, a prominent citizen of Chicago was told by his physicians that he must die. They said his system was so debilitated that there was nothing left to build on. He made up his mind to try a "new departure." He got some of Dr. Pierce's Golden Medical Discovery and took it according to directions. He began to improve at once. He kept up the treatment for some months, and is to-day a well man. He says the "Discovery" saved his life.

E. Martin, of Brown County, Ohio, is one of the largest dealers in horses in the country. For a number of years past he has paid out annually an average of \$100,000 at Bloomington, Ill., alone. The Ripley Bee says he shipped six car-loads the past month.

The Ohio Valley Cattle Growers' Association has been organized with headquarters at Cincinnati. The object is to give an annual fat-stock show some place in the Ohio valley, including Ohio, Indiana, Kentucky, Tennessee, Western Pennsylvania and West Virginia.

The News, of Owenton, Ky., says: "Very few of the men who have been buying tobacco for several years past expect to purchase much, if any, this season. Quite a number of them have informed us that they will not buy any until they see how much tobacco is going to be planted this year. Farmers, it is time to curtail the crop. The halt has been called. Do not put in any more tobacco this year than you can give the very best attention without help. Do not think that if your neighbor grows only a small crop that you can get big money for a large one, but cut yours down in the same ratio that your neighbor does."

Mr. V. A. ANTONALLI, who has been in the employ of Messrs. Hechinger & Co. and Mr. Louis Zech for the past two years, left to-day with his wife and child for Birmingham, Ala., where they will make their home hereafter. During his stay here he has shown himself to be a quiet, sober and industrious citizen, and his friends will wish him good luck in his southern home.

### Knights of Labor Notes.

Knowledge is power and organized intelligence is unconquerable.

Upon the welfare of the working classes depends the prosperity of this city.

The Cigar-makers' Union controls nearly every factory in this city. Smoke the Blue Label.

Enforced idleness begets vice and intemperance, and these combined fill our almshouses and prisons, in fact, make these institutions necessary.

Lady (to husband): Why did you bow so politely to that very common-looking man just now?

Husband (a capitalist): He belongs to the Knights of Labor, my dear.

The K. of L. is destined to be a great power ultimately in this city, with such men in it as are constantly adding their names to the list. One would be surprised to know the prominent men who are members.

All the signs point to the gratifying fact that wages throughout the country are going to rule higher this season than for many seasons before. This is one of the first and most substantial fruits that has resulted from the organization of labor.

The K. of L. welcomes to its ranks all who come well recommended, except four classes of citizens—bankers, lawyers, gamblers and rum-sellers. These four are refused admittance for the reason that they are non-producers, and can exert no good influence over the members.

A determined effort should be made by organized labor in this city in the direction of withdrawing from competition with free labor the work done by station house prisoners, but you must find a means by which the city will derive as much benefit from the labor of its confined criminals as has resulted heretofore.

What the workingmen of this city want, and what we believe to be their rights, is that they find steady employment, that their hours of labor be limited to nine, and that they receive a just proportion of the profits accruing from their labor, or an amount at least sufficient for the comfortable maintenance of themselves and families.

You capitalists, you prince of the mills, these men you convert into tigers may yet become your despoilers. The tiger may not always crouch in humble submission. The day may not be far distant when he will gnash his teeth in fury and hunger for blood. He cannot be chained. "Woe to you who grind the face of the poor," saith the Lord.

The Knights of Labor make no war on legitimate capital invested for beneficial and reputable purposes, but the devouring and liberty-destroying dragon of monopoly must be crushed out of existence. All capitalists are not monopolists. What we mean by monopolists is, that class of human bipeds who have no mercy or sympathy for their fellow beings, and care not a feather whether the men and women in their employ starve to death for want of wages sufficient to keep them alive, so long as handsome dividends can be declared, and the bank accounts of the huge-paunched directors are swelled to enormous proportions from one year's end to the next.

### Do You Know

That DuLac's Swiss Balsam is the best remedy for coughs, colds, croup, bronchitis, etc.

That Swiss Balsam will cure that neglected cold. Delays are dangerous.

That Swiss Balsam contains no morphia or opium, thus making it the best and safest cough remedy for children. Pleasant to take.

That this valuable remedy only costs 25 cents a bottle and can be had at J. C. Pecor & Co.'s.

We ought not to be too anxious to encourage untried innovation, in cases of doubtful improvement. For a quarter of a century Dr. Sage's Catarrh Remedy has been before the public and passed through the severest test and is pronounced the most reliable remedy for that disagreeable malady. Thousands of testimonials of its virtues. 50 cents per bottle. By druggists.

### An End to Bone Scraping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c per box by J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

### Good Results in Every Case.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes that he was seriously afflicted with a severe cold that settled on his lungs; had tried many remedies without benefit. Being induced to try Dr. King's New Discovery for Consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all coughs and colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery. Trial bottle free at the drug stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

### TREMENDOUS EXCITEMENT EXISTING IN NEWFOUNDLAND.

The Disallowance of the Bait Act Arouses the People to An Almost Rebellious Feeling—An Inspired Article in the Government Organ on the Subject.

ST. JOHNS, N. F., Feb. 12.—Tremendous excitement exists here over the disallowance by the imperial government of the Newfoundland law prohibiting the export of bait, on the ground that the heavy investments of French fishermen in the bank fisheries will be prejudiced and irritation caused between England and France. The fact is that Newfoundland has once more been sacrificed to imperial cowardice. The justice of the bill was clearly admitted by the British authorities, and they did not attempt to disguise the fact that the disallowance was through fear of new complications with France. An inspired article in the government organ says: "The people learn of the disallowance with feelings of bitter indignation. The law was passed a year ago, and up to the present moment there was reason to believe that royal assent would be withheld. The reason given for disallowance is a mere subterfuge. Had the law been assented to—as in justice to Newfoundland it should have been a year ago, when it was sent to the imperial authorities—the paltry grounds of disallowance would not now have existed. It is a significant fact that no such humiliating vacillation prevailed with regard to the royal assent given to the Canadian bait bill running concurrently with ours and having similar objects in view. What tender regard we have here evinced by imperial rulers for French susceptibilities and French commerce, and what utter disregard for British colonial interests does this episode afford!"

"The imperial government has already admitted the justice of our cause by granting to Canada what she refuses to Newfoundland. The mother country is in justice and humanity bound to maintain the fishermen of Newfoundland on an equal footing with foreigners by granting bounty equal to that of France, or providing means of imperial expediency. It is somewhat remarkable that so much sympathy should be shown for French commerce by our imperial rulers and so little for the millions of British capital invested in Newfoundland fisheries. "Let the legislature be immediately summoned and the law be re-enacted. We must firmly tell the government and parliament of Great Britain that the measure is vital to our interests, as the existence of our people is involved in the preservation and control of our bait fisheries. The government and people of Canada will sustain us in insisting on controlling the export of bait, and they will not see us sacrificed to French interests."

#### NEW ORLEANS GAMBLERS.

Thirty-One Indictments Found Against Wealthy Gamblers.

NEW ORLEANS, Feb. 12.—The grand jury has returned seventeen indictments against thirty-one of the wealthiest gamblers in this city. Gambling has been publicly conducted here ever since the war, but for the last six years each house has been compelled to pay the city a large sum monthly for charitable purposes. This was clearly against the law, but the city authorities contended that they could not suppress the evil and it was better that the city should derive some financial benefit from the business.

Until recently the gamblers' fund had been devoted to the maintenance of the Shakespeare almshouse and the gamblers believe the diverting of revenue to other purposes is the main cause of the indictments. A number of wealthy gamblers have surrendered themselves and gave bond. The penalty for gambling in this state is from \$1,000 to \$5,000 fine for the first offense and \$5,000 to \$10,000 and imprisonment for the second. This law, however, only effects banking games, consequently no indictments have been returned against keno and poker rooms. Gamblers, it is believed, will pay the fines and continue to conduct the business by a system of police bribery, as was done before the arrangement that existed up to the present time which was made with the mayor.

#### A Live Volcano and Earthquakes.

SAN FRANCISCO, Feb. 12.—The latest advices from Honolulu states that on January 15 the volcano Mauna Loa began emitting fire, smoke and lava, and has continued without ceasing since. The lava is running toward the sea, and unless its course is changed, will do serious damage. Rev. J. D. Paris writes from Kaawala: "For thirty-six hours there has been one continuous series of earthquakes—tremulous jars, with pretty hard shakes interspersed, running into each other—and our house has seemed like a little craft or a bubble floating on a wave-chopped sea. While I write my table rocks so that it is difficult I keep my seat and hold my pen."

#### B. & O. Passenger Agent Dead.

CINCINNATI, Feb. 12.—J. Frank Dunn, passenger agent of the Baltimore & Ohio road, died at 2 o'clock a. m. Since his stroke of apoplexy and paralysis a week ago he had laid unconscious, recognizing his friends only at intervals. For the past three days he had not been conscious a moment.

#### Still at Large.

CANTON, O., Feb. 12.—A party of Cleveland police arrived here Wednesday night to investigate the report of the hiding in a swamp near here of a suspicious gang. The officers made a thorough search, but found nothing to justify the report and returned home.

#### Both Legs Amputated.

CHARLESTON, W. VA., Feb. 12.—Robert Crawford, of St. Albans, this county, tried to jump on a moving freight train at Scott's Station last night. He missed his footing, fell under the cars and had both legs cut off.

#### Twenty Counts Against Hoke.

PEORIA, Ill., Feb. 12.—The grand jury has returned an indictment containing twenty counts against Finley Hoke. The charge is forgery, and is based on drafts filled out by Hoke that will aggregate \$10,000.

#### Fatally Hurt.

WINCHESTER, O., Feb. 12.—Mr. James McClanahan, living eight miles south of this city, fell from a haymow and was seriously injured about the head and neck. He will probably die.

#### An Old Lady's Death.

CINCINNATI, Feb. 12.—Mrs. Rosanna McEvoy, one of the pioneers of the city, lies dead at the residence of her son in the Twenty-fifth ward. She was ninety-eight years of age.

# GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC. WILL CURE CONSUMPTION.

And is the best remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Bronchitis, Whooping Cough, Croup, Pain or Oppression of the Chest, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Coughs, Night Sweats and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all fatal diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its results to bring back health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening vice, menacing the health and existence of a vital organ; so commence at once at the first indication of a cough. TRY IT, you who suffer, and be convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. This remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? I so, make one more trial. Is not your life indeed worth one more trial? Test the truth of our words, I only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life so we plead with you to save yourselves from a premature grave. We positively guarantee a perceptible and continuous improvement when the medicine is faithfully and persistently used.

PREPARED BY THE CINCINNATI DRUG AND CHEMICAL CO., 54 Main St., Cincinnati, Ohio.

FOR SALE BY ALL DRUGGISTS.

If not on sale at nearest dealer, will send two bottles, post paid, on receipt of \$1.00.
